

Williton War Memorial Ground Trustee

New Pavilion and Improvements to the Recreation Ground- Update

We are now approaching our target date of 30th September to submit the amended planning application. We are making good progress though still some tidying up to do before we can formally submit it.

Progress to date, the architect has now completed the survey of the ground levels behind the Doctors surgery, the results indicate that we do not need to raise the building or undertake any further flood mitigation activity. This means that we may now avoid the expected cost increase associated with the new location. We have also had feedback from the police on the security of design and their recommendations have been incorporated within the scheme.

We are working with the architect on a new site plan and once agreed by the Trustee, it will be available to view within the Parish Office.

Councillor Bill Vaughan
