

## **Williton Pavilion Project**

### **Project Update.**

Following a review of the tenders submitted for the role of Employers Agent & Quantity Surveyor, the charity has selected Slade Parry Ltd to manage the construction phase of the project. Their formal appointment shall only follow a positive decision by the Big Lottery.

Slade Parry Ltd is a Yeovil based company with offices in Minehead. Slade Parry Ltd has previous experience working on similar projects that have been lottery funded. In the interim the charity, working with Slade Parry, has established a list of potential contractors who have expressed an interest in tendering for the construction phase of the project.

During March we also met with a representative of the Big Lottery who was on a fact finding mission. After visiting the site, we discussed various aspects of our submission which resulted in a number of actions. These were addressed and a response provided for his end of month report to the Lottery panel.

A decision is still expected during April and details of their decision will be included within the June edition of the Window.
